Battery Capacity	7.4V/2000mAh
Playing Time	6-8 hours (50% Volume)
Talking Time	4-5 hours
Charging Time	3-4 hours
Charging Current	5V ⎓ 2A
Speaker Unit	15W x 2
Product Size	184 x 114 x 114mm
Product Weight	800g±50

FREQUENTLY ASKED QUESTIONS

Q1: What kind of charger should we use for the speaker?
A: All common USB chargers can be used, while we suggest the ones 5V/2A or above 2A.

Q2: How to do if there is noise or discontinuous sound during playing?
A: The speaker can be normally used within 10m under no obstruction environment. If it is beyond 10m or with obstruction, there might be noise or discontinuous sound.

Q3: Why the speaker power off automatically after power on but no Bluetooth disconnection ?
A: When there is no bluetooth pairing in 10 minutes, the speaker will shut down automatically to reduce power consumption.

Q4: Why does the speaker cannot connect the once-paired cellphone?
A: First, remove the speaker's paired name from the cellphone's Bluetooth List and then restart pairing.

Q5: The speaker cannot be started up in a normal situation.
A: Please plug in the charger and try in a few minutes or try to long press power button 10-30s to reset.

FREQUENTLY ASKED QUESTIONS

Notes:
1. Please read this manual carefully before use and keep it properly.
2. For the first use, please fully charge the product.
3. Pls use certificated adapter that has passed national safety certification.
4. If you do not use the product for a long time, be sure to charge it once within a month at least to maintain its performance.
5. Do not use this product in an extremely cold or hot environment, such as temperature beyond the range of 5℃-35℃. If use it beyond the above range, the product may stop automatically to protect the internal circuit.
6. When charging it in a high temperature environment, the product may automatically stop charging to protect the battery. At this time, the charging indicator usually flashes quickly to indicate that the charging environmental temperature or the product internal temperature is too high.
7. Storage environment temperature: -5～35℃ RH＜70% (recommended 25℃±5).

Important safety instructions:
1. Do not disassemble or repair this speaker personally, otherwise it may cause product damage or personal injury.
2. Do not use it in dusty, humid, dry, and high-temperature environment.
3. Do not place this product near a heat source, or a place with direct sunlight, a lot of dust, or mechanical vibration.
4. In order to reduce the risk of fire, please do not cover this product with newspapers, tablecloths, curtains etc., during use.
5. If the product has a waterproof feature, please do not exceed the nominal parameter range when using it.
6. When the product is damaged (such as the power cord or plug is damaged, liquid enters or objects fall into the device, unable to operate normally or falls), it must be repaired.
7. When the product is fully charged, do not connect it to the charger for further long time charging.
8. The maximum ambient temperature should not exceed 40℃.

*This speaker supports mobile phones/ tablets/ PCs etc. Here this User Manual is illustrated base on mobile phones.
