WiFi Setup Instructions

Tesvor APP is continually updating and optimizing, please make sure you are using the latest version.

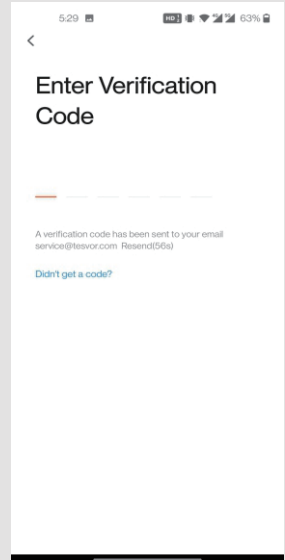

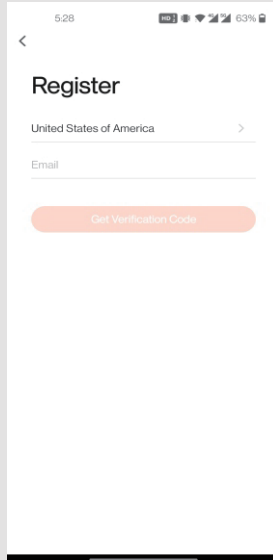

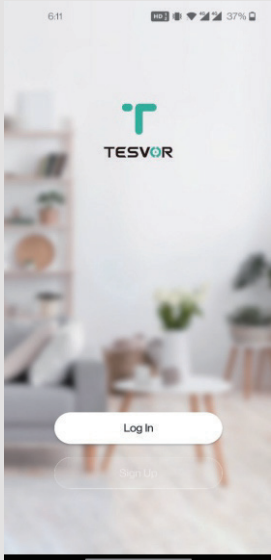

Notice:

1.If you have any other questions, please use the app's FAQ&feedback or send an email to service@tesvor.com

- 1 Search for "Tesvor" on the App Store (ios) or Google play (Android). Then, download and install it.

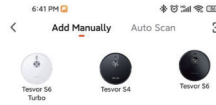

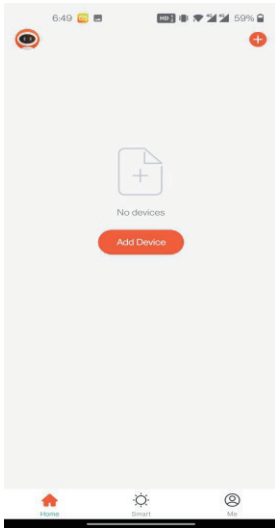

- 2 Open the app, register with your mobile phone number or email and log in.

3

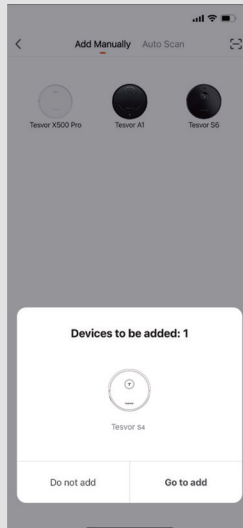

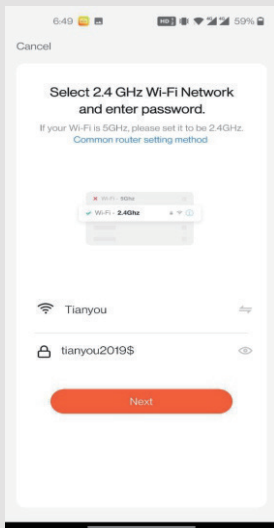

Click the "+" icon in the upper right corner. A box will pop up on this page to prompt you to associate the device, when your device is in-network configuration mode. Click 'Go to add' to connect.

In order to improve the product, we reserve the right to update the app and software. The final interface is subject to the actual product, thank you.

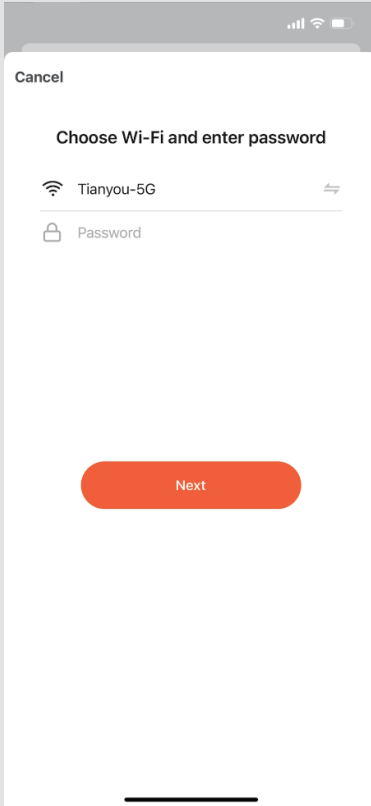

4

Connect your house WIFI (only support 2.4GHz Wi-Fi), and check the 'Confirm the indicator is blinking slowly' box, then click the 'Next' button.

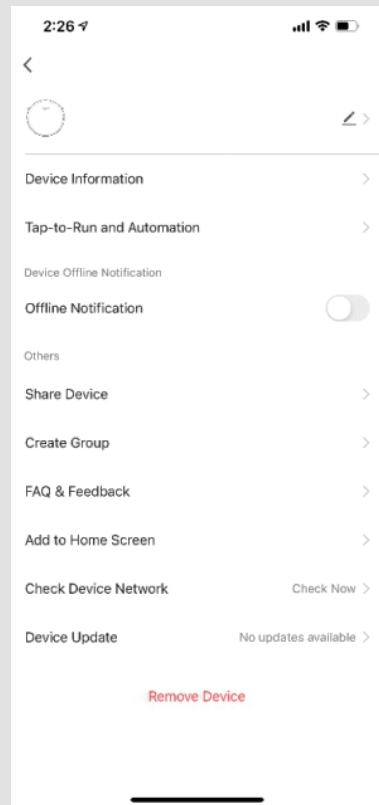

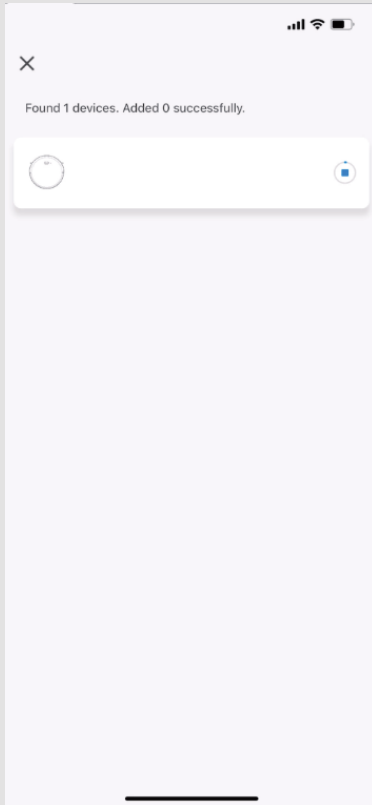

5

Tap the 'double arrow' icon on the right side of the Wi-Fi name, select 2.4Ghz Wi-Fi, then return to the Tesvor APP. Enter the password below the Wi-Fi name, and click 'Next'.

6

The App is going to automatically start connection work, wait patiently for a few seconds, the network configuration is done! Let's start the first clean work!

Furthermore, tap the pen icon on the upper right to unlock more settings and functions; you can adjust them according to your preferences to make the machine more suitable for you.

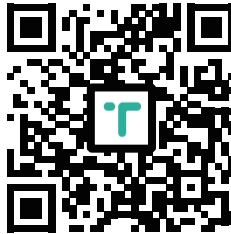

Anleitung zur WLAN-Einrichtung

Die Tesvor-APP wird ständig aktualisiert und optimiert.
Bitte stellen Sie sicher, dass Sie die letzte Version auf Ihrem Smartphone oder Tablet haben.

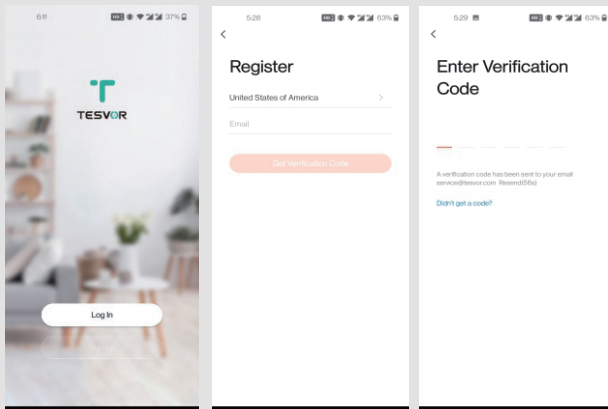

Bitte beachten Sie:

1. Wenn Sie weitere Fragen haben, melden Sie sich bei APP oder schreiben Sie uns an service@tesvor.com

1. Suchen Sie im App Store (iOS) oder bei Google Play Store (Android) nach „TESVOR“ Lifestyle.

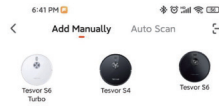

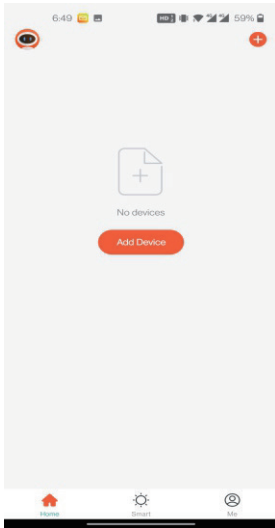

2. Laden Sie die APP herunter und installieren Sie sie. Öffnen Sie die App „Erstellen eines neuen Kontos“, registrieren Sie sich mit Ihrer Handynummer oder E-Mail und loggen sich damit ein. Sie erhalten dann einen Verifizierungscode, welchen Sie dann eingeben müssen. Erstellen Sie ein persönliches Passwort und schon kann es losgehen. Auf „Ich hab's“ tippen.

3

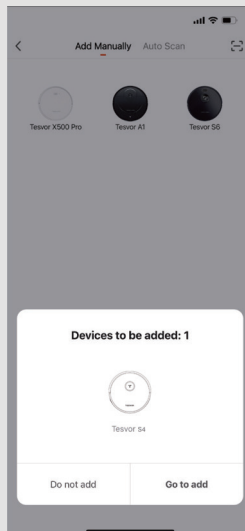

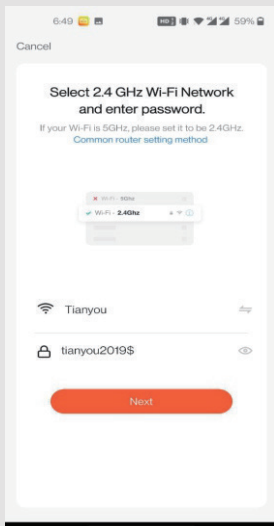

Klicken Sie "+" Icon oben recht und wählen Sie bitte das Gerät bei Ihnen aus. Klicken Sie dann ,Go to add'.

Hinweis: Um das Produkt zu ständig zu verbessern, behalten wir uns das Recht vor, die TESVOR-App stets zu aktualisieren und somit auch die entsprechende Software auf den neuesten Stand zu halten. Die endgültige Schnittstelle ist abhängig zum eigentlichen Produkt. Vielen Dank für Ihre Beachtung.

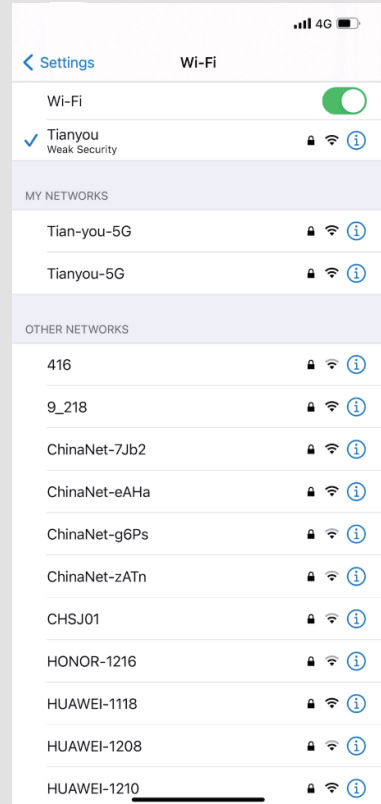

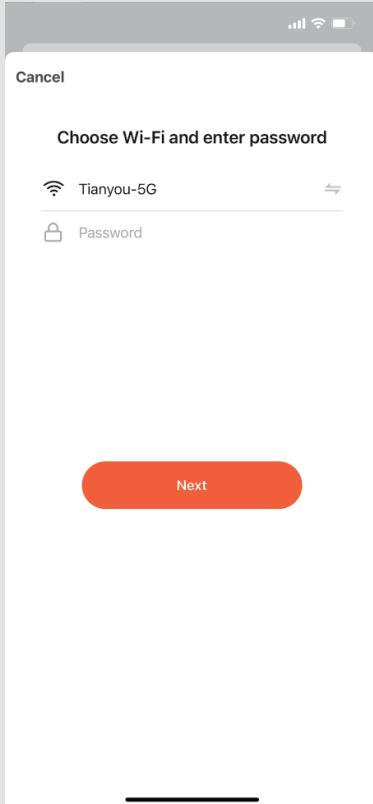

4

Verbinden Sie nun Ihr internes Netzwerk zu Hause (es wird nur 2,4-GHz-WLAN unterstützt) und aktivieren Sie die Verbindung durch klicken auf „Bitte bestätigen Sie“.Die Anzeige blinkt nun langsam, danach klicken Sie auf die Schaltfläche "Weiter".

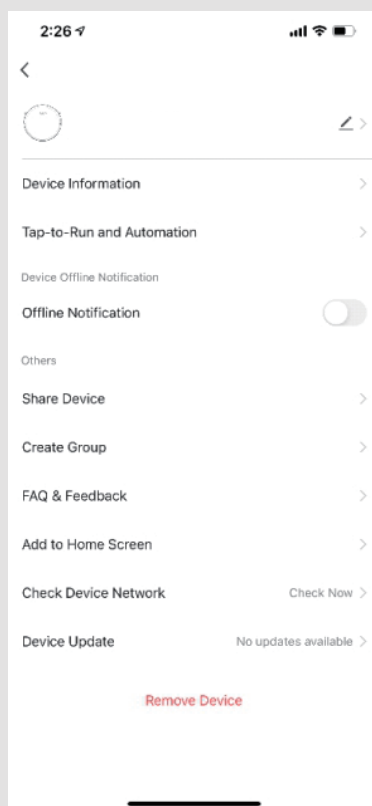

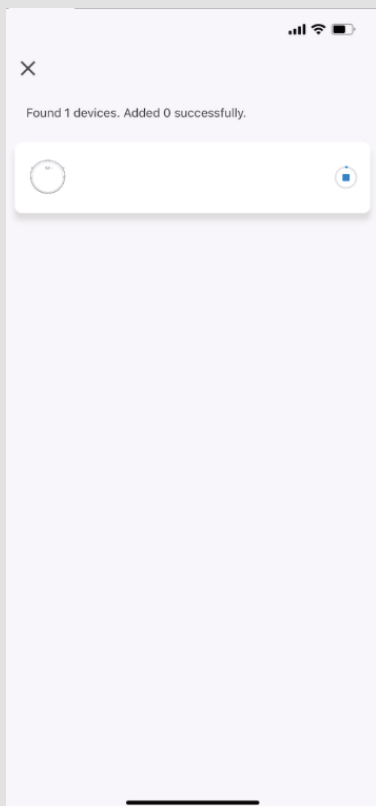

5

Klicken Sie das ⇌ Zeichen rechts von dem Wi-Fi Namen, wählen Sie da ein 2.4Ghz Wi-Fi, dann kehren Sie zurück zur Tesvor APP. Geben Sie das Passwort ein und klicken Sie ‚nächster Schritt‘.

6

Die APP fängt dann automatisch mit der Verbindung an, warten Sie bitte kurz. Die Verbindung ist erfolgreich, jetzt kann der Saugroboter die Reinigung beginnen.

Furthermore, tap the pen icon on the upper right to unlock more settings and functions; you can adjust them according to your preferences to make the machine more suitable for you

Außerdem können Sie den Stift oben rechts klicken um mehr Funktionen zu entdecken. Bestimmen Sie einfach selbst wie der Saugroboter arbeiten soll.

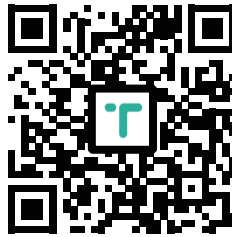

Instructions de configuration Wi-Fi

Tesvor APP is continually updating and optimizing, please make sure you are using the latest version.

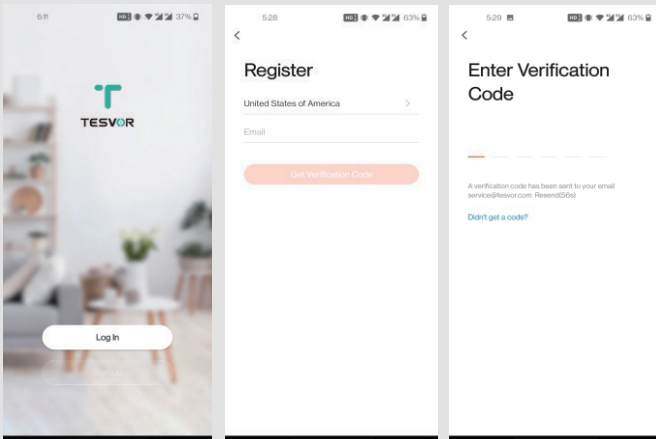

Remarque:

1. Si vous avez d'autres questions, veuillez utiliser la FAQ et les commentaires de l'application ou envoyer un e-mail à service@tesvor.com

1 Recherchez "Tesvor" sur l'App Store (ios) ou Google play (Android). Ensuite, téléchargez-le et installez-le.

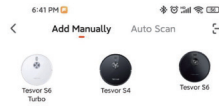

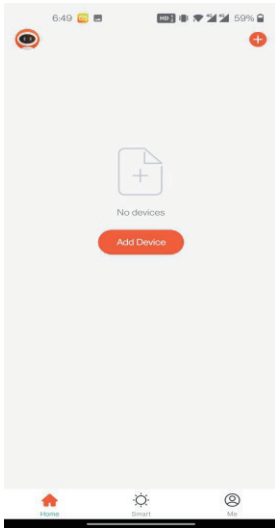

2 Ouvrez l'application, enregistrez-vous avec votre numéro de téléphone portable ou votre e-mail et connectez-vous.

3

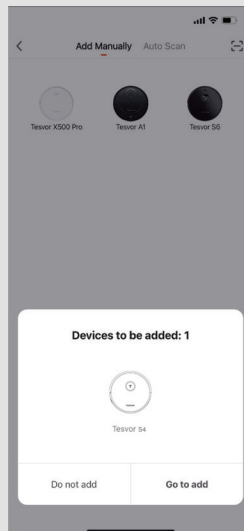

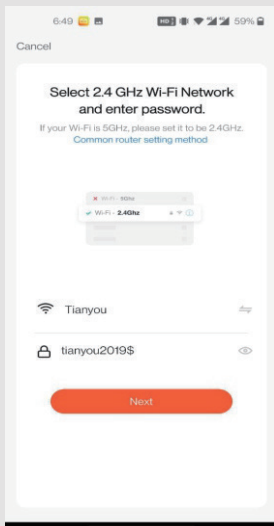

Cliquez sur l'icône "+" dans le coin supérieur droit. Une boîte apparaîtra sur cette page pour vous inviter à associer le dispositif, lorsque votre dispositif est en mode de configuration réseau. Cliquez sur "Go to add" pour vous connecter.

Afin d'améliorer le produit, nous nous réservons le droit de mettre à jour l'application et le logiciel. L'interface finale est soumise au produit réel, merci.

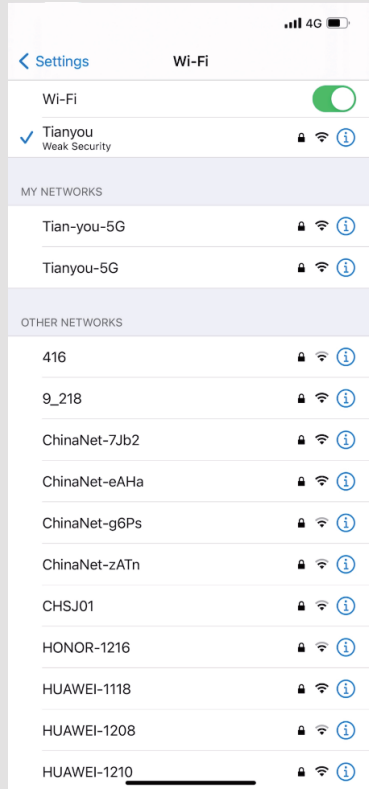

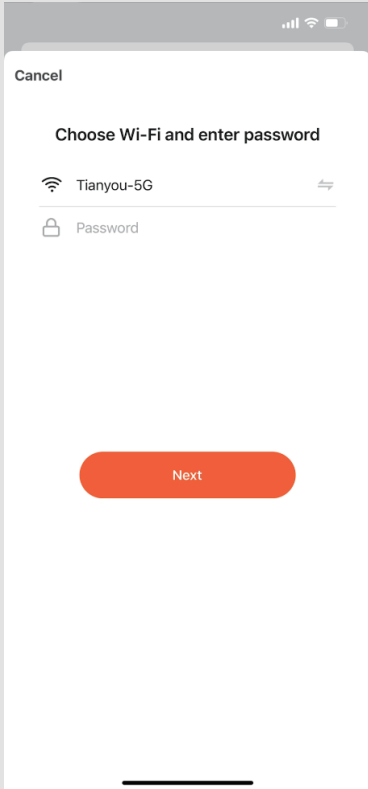

4

Connectez le Wi-Fi de votre maison (ne prend en charge que le Wi-Fi 2,4 GHz) et cochez la case « Confirmer que l'indicateur clignote lentement », puis cliquez sur le bouton « Suivant ».

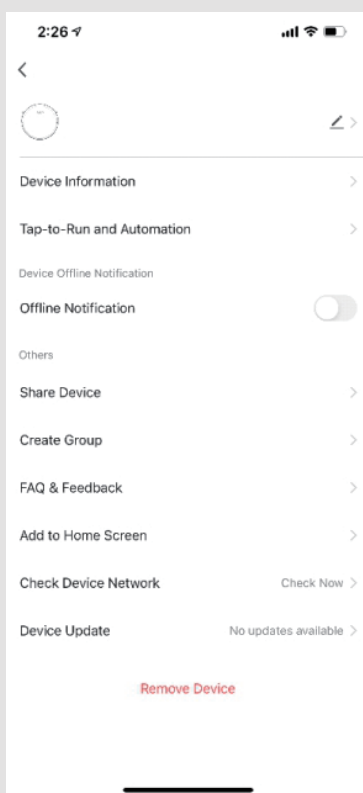

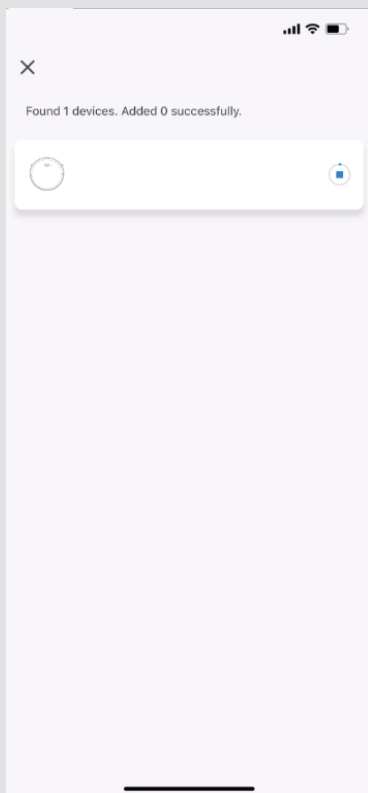

5

Appuyez sur l'icône "double flèche" à droite du nom Wi-Fi, sélectionnez 2.4Ghz Wi-Fi, puis revenez à l'APP Tesvor. Saisissez le mot de passe sous le nom du Wi-Fi, puis cliquez sur "Suivant".

6

L'App va automatiquement commencer le travail de connexion, attendez patiemment quelques secondes, la configuration du réseau est faite ! Commençons le premier travail de nettoyage !

De plus, appuyez sur l'icône du stylo en haut à droite pour déverrouiller plus de paramètres et de fonctions ; vous pouvez les ajuster selon vos préférences pour rendre la machine plus adaptée à vos besoins.

Istruzioni per la configurazione del Wi-Fi

L'APP Tesvor viene continuamente aggiornata e ottimizzata, assicurati di utilizzare la versione più recente.

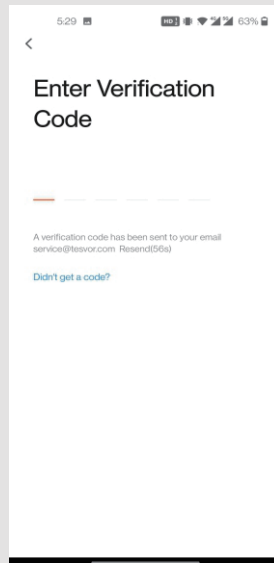

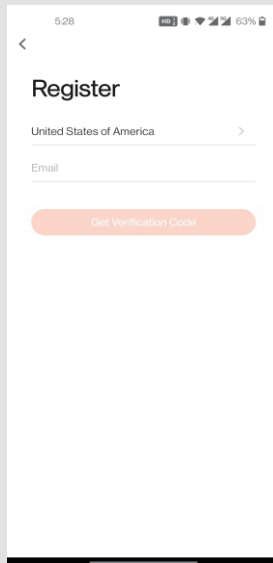

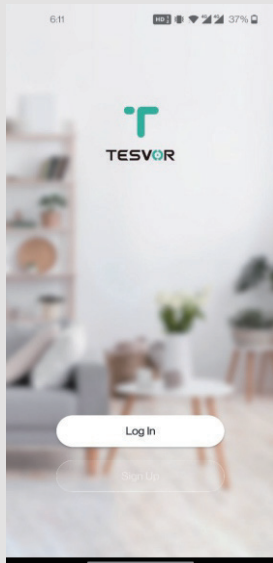

Avviso:

1. In caso di altre domande, utilizzare le domande frequenti e i feedback dell'app o inviare un'e-mail a service@tesvor.com

1 Cerca "Tesvor" su App Store (ios) o Google Play (Android). Quindi, scaricalo e installalo.

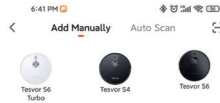

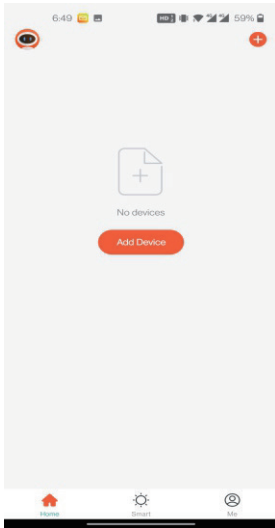

2 Apri l'app, registrati con il tuo numero di cellulare o email e accedi.

3

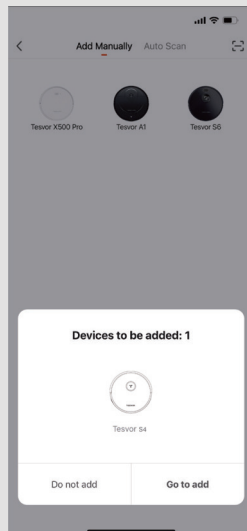

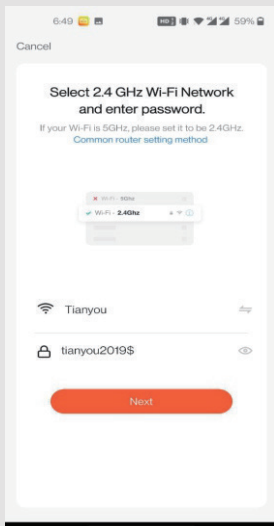

Clicca sull'icona "+" nell'angolo in alto a destra. Una casella apparirà in questa pagina per chiederti di associare il dispositivo, quando il tuo dispositivo è in modalità di configurazione della rete. Clicca su "Vai ad aggiungere" per connetterti.

In order to improve the product, we reserve the right to update the app and software. The final interface is subject to the actual product, thank you.

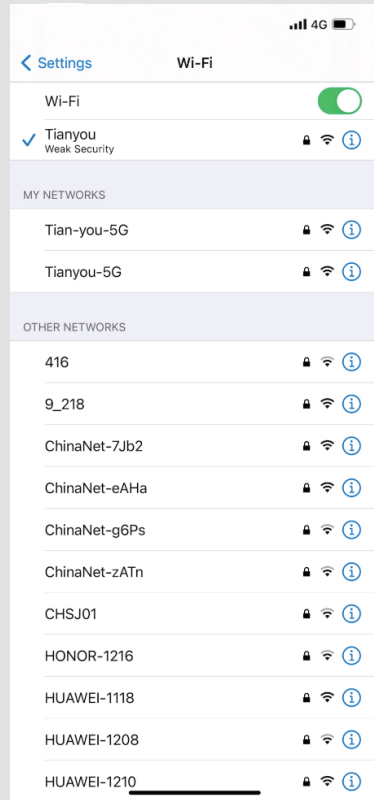

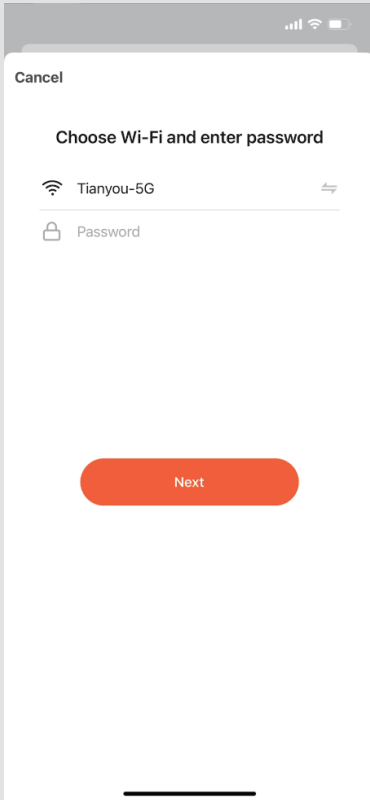

4

Connetti il Wi-Fi di casa (supporta solo Wi-Fi a 2,4 GHz) e seleziona la casella "Conferma che l'indicatore lampeggia lentamente", quindi fai clic sul pulsante "Avanti".

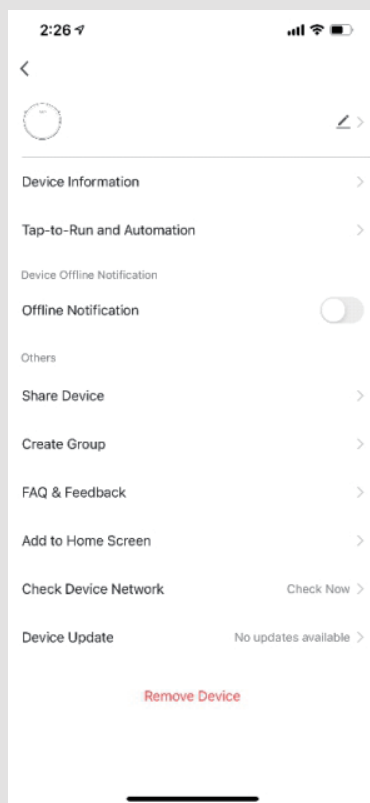

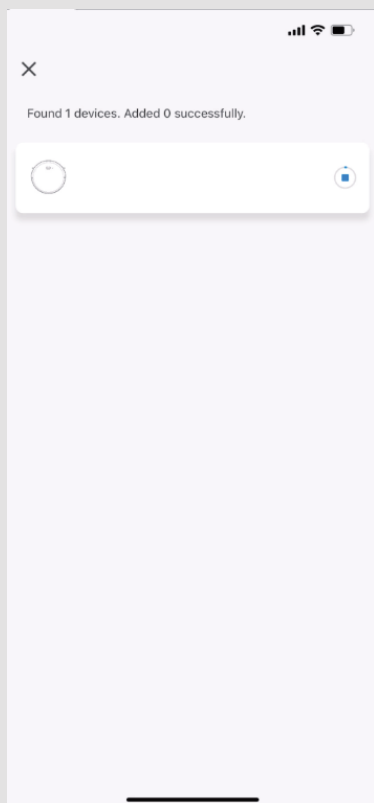

5

Toccare l'icona 'doppia freccia' sul lato destro del nome del Wi-Fi, selezionare 2.4Ghz Wi-Fi, quindi tornare alla APP Tesvor. Inserisci la password sotto il nome del Wi-Fi, e clicca su 'Avanti'.

6

L'applicazione inizierà automaticamente il lavoro di connessione, aspetta pazientemente per qualche secondo, la configurazione della rete è fatta! Cominciamo il primo lavoro pulito!

Inoltre, tocca l'icona della penna in alto a destra per sbloccare più impostazioni e funzioni; puoi regolarli in base alle tue preferenze per rendere la macchina più adatta a te.

Quick Guide of Using Amazon Alexa to Control Your Tesvor Robot

What you need to get started

Before using Echo to control your robot vacuum, make sure you meet the following conditions.

- ✓ **Stable Wi-Fi network which could access to Amazon server. (For mainland China users)**
- ✓ **An Echo device, including Echo, Echo Tap, or Echo Dot.**
- ✓ **An Amazon account.**
- ✓ **Tuya Smart App and a related account.**
- ✓ **Your robot vacuum**

Step 1

Add devices in Tesvor App (See in App Instruction)

You can skip this part if you've already added some devices to your Tesvor account, and in the meantime, the devices' names are easily recognized.

Step 2

Set up Amazon Echo and enable skill

Search "Amazon Alexa" in App Store or Google Play to install the App.

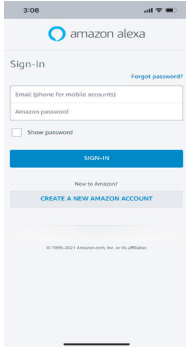

We take App configuration as an example. Configuration through web and App are basically the same.

Step 3

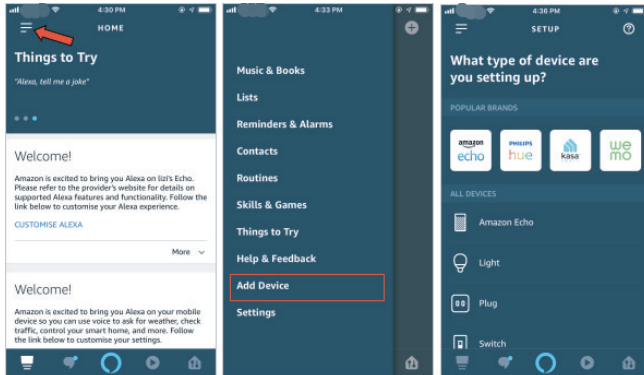

Set up Echo with Amazon Alexa App

You can skip this part if your Echo is already set up.

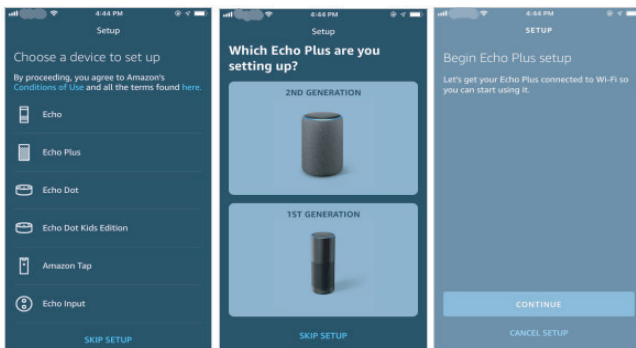

1. **Make sure your Echo device is energized.**
2. **Make sure Echo is in a Wi-Fi network that can access Amazon services smoothly.**
3. **Open the Alexa App by tapping the App icon on your mobile device.**
4. **Type in your Amazon account and password, then tap "SIGN IN".**

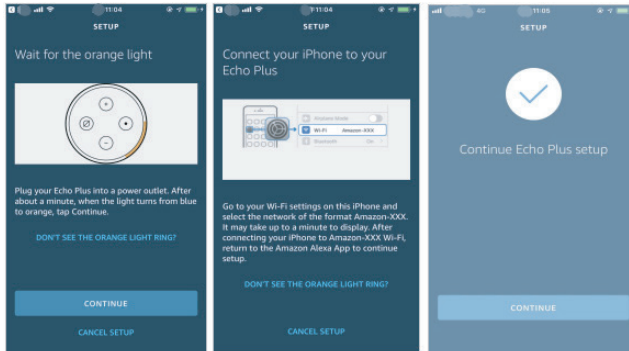

5. Tap the hamburger menu on the top left corner, select "Add Device", Select Amazon Echo in the Set up page.

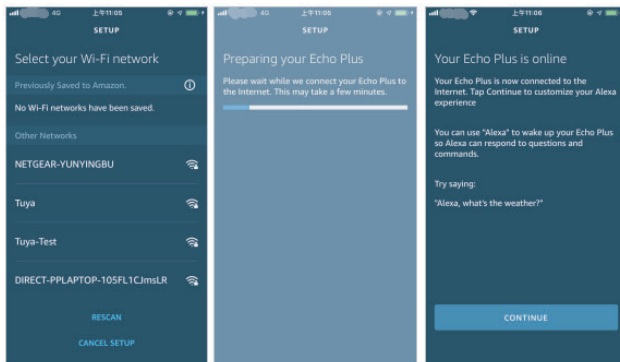

6. Select the type of your Echo, then tap "CONTINUE".

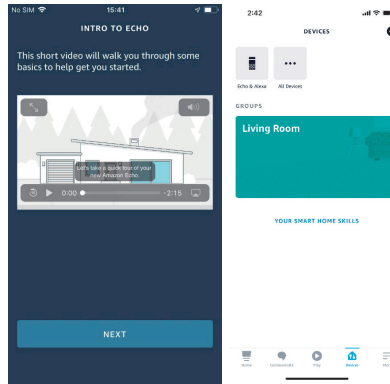

7. Long press the dot button on the top of your Echo device until the orange light shows up, then tap “CONTINUE” . Make your mobile phone connected to the hot spot of Echo, then tap “CONTINUE” .

8. Select a Wi-Fi to let Echo have the access to the internet. Type in the Wi-Fi password, then tap “CONNECT” . Echo may take several minutes to connect the network.

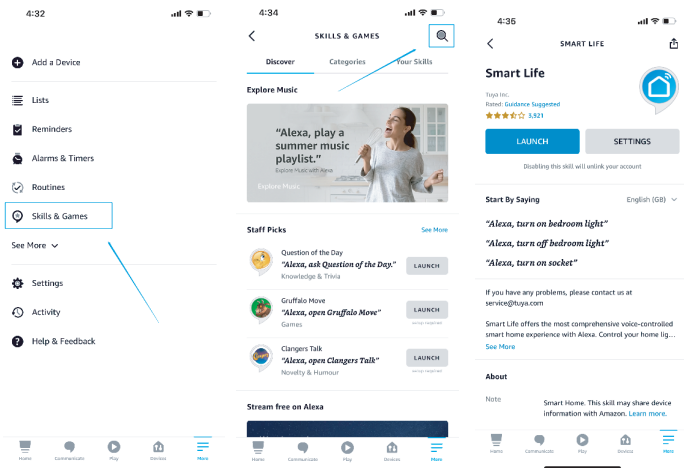

9. Tap “CONTINUE” when Echo is connected to the network. After an introduction video, tap “NEXT” to finish the setup. At this point, the Echo configuration process ends.

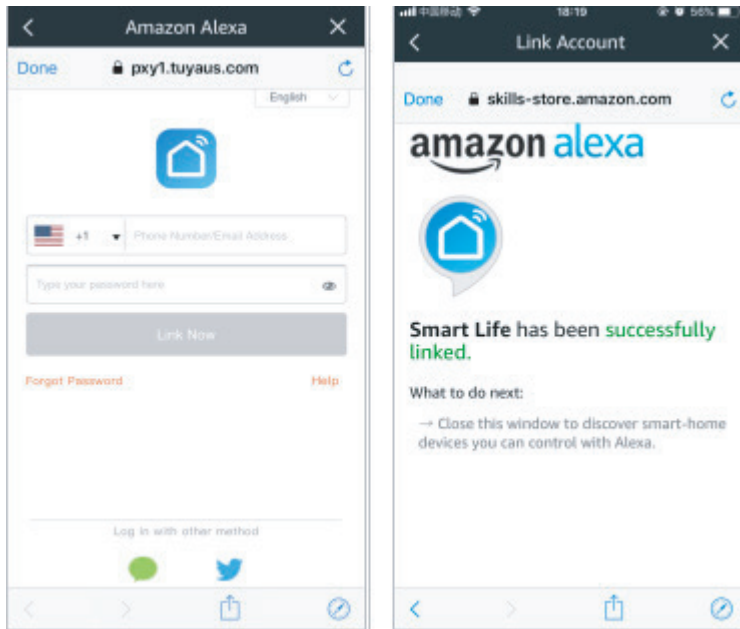

Step 4

Link Tesvor Account account to Alexa

1. Tap “Skills&Games” in the Bottom bar of “More” , then search “Smart Life” .
Select and tap “ENABLE” to enable the Skill.

2. You will be redirected to the account link page. Type in your Tesvor account and password, don't forget to select the country/region where your account belongs to. Then tap "Link Now" to link your Tesvor account. The country/region.

3. Next, turn on your sweeper and press and hold the top button to turn on the network configuration mode. Then instructing Echo: Alexa, discover devices. Finally, wait for Alexa to find the device to complete the device connection. You will see in the Alexa App that the robot has been added as one of the devices, and the voice control is unlocked.

Almost done!

Now you can control your robot vacuum through Amazon Alexa. You can make a voice command now.

For example:

- Alexa, turn on/off robot (device name)
- Alexa, set robot to clean mode
- Alexa, what is the mode on robot?
- Alexa, what is the fanspeed on robot?
- Alexa, set robot fan speed to 2.

Quick Guide of Using Google Home to Control Your Tesvor Robot

What you need to get started

Before using Google Home to control your devices, make sure you meet the following conditions.

- 1.A Google Home device, or Android phone with Google Assistant.
- 2.Latest Google Home App.
- 3.Latest Google App (Android only)
- 4.A Google account.
- 5.The device display language must be set to English US.
- 6.Tesvor App and a related account
- 7.Your smart devices.

Step 1

Add devices in Tesvor App (See in App Instruction)

You can skip this part if you’ ve already added some devices to your Tesvor App account

Step 2

Set up Google Home and configure in Home Control

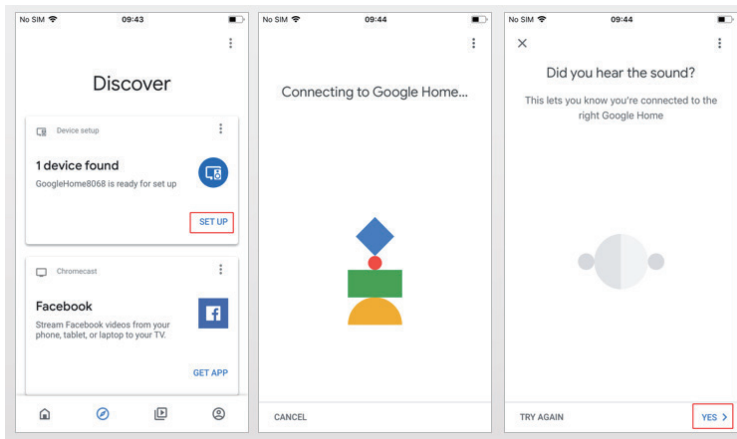

Configuration needs Google Home App. Search “Google Home” in App Store or Google Play to install the App.

Step 3

Set up Google Home with Google Home App

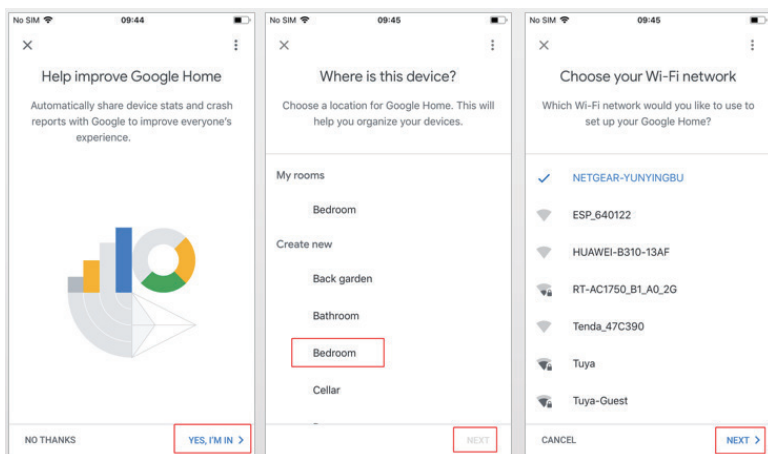

|| You can skip this part if your Google Home is already set up.

1. Make sure your Google Home is energized and four colored lights on the top are on which means that it is in a state of waiting for a connection.
2. Make sure Google Home is in a Wi-Fi network that has smooth access to Google services.
3. Open the Google Home App, the device will automatically Appear in the “Discover” page.
4. Click “SET UP” to start connecting to Google speakers and click “YES” after you hear the voice prompts.

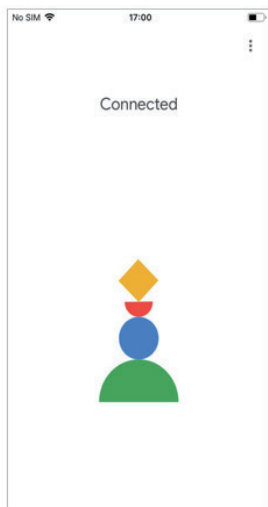

5. Help improve Google Home and click “YES, I’M IN” in the lower right corner.
6. Choose a location for Google Home, for example, choose “bedroom”.

7. Choose your Wi-Fi network to set up your Google Home.

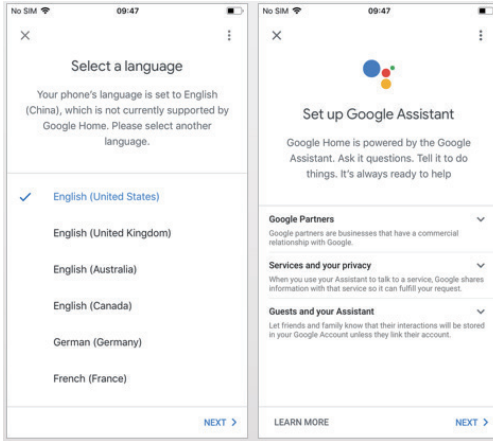

8. After successfully connected, the App page will display as follows.

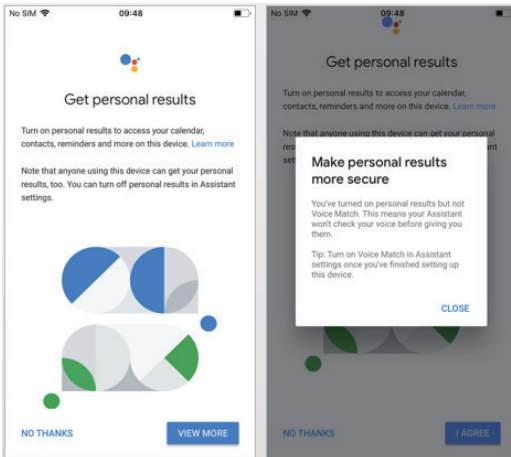

9. Select a language, then click "Next".

10. Waiting for the system to set up your Google Assistant automatically, click “Next”.

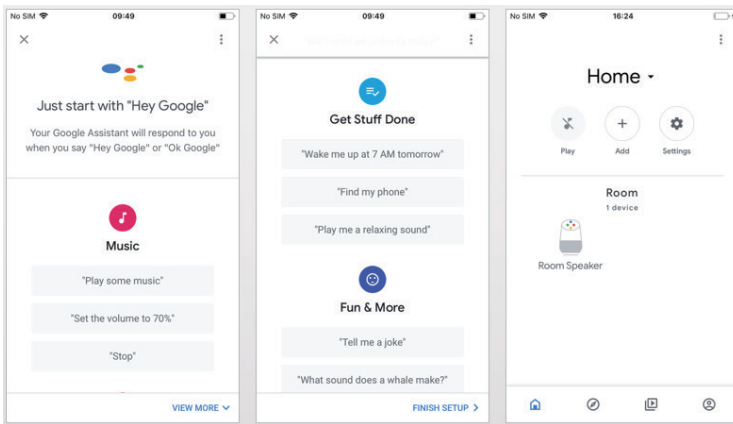

11. Click “VIEW MORE” to pop up a dialog box, and then click “I AGREE” to allow Google Home to get your calendar, flight itinerary, and more to provide personalized customization. Then set your geographic location, select the music service you need, and click on “NEXT”. If you don’t need it, you can click “Not Now” to skip.

12. Then comes a review of what you have done. After clicking “Next” the page will display “Google Home is ready”. At this point, Google Home’s set up is complete.

13. This step is the voice control tutorial, click “FINISH SET UP”. Then the speaker that have been connected successfully will display in the “Home” page.

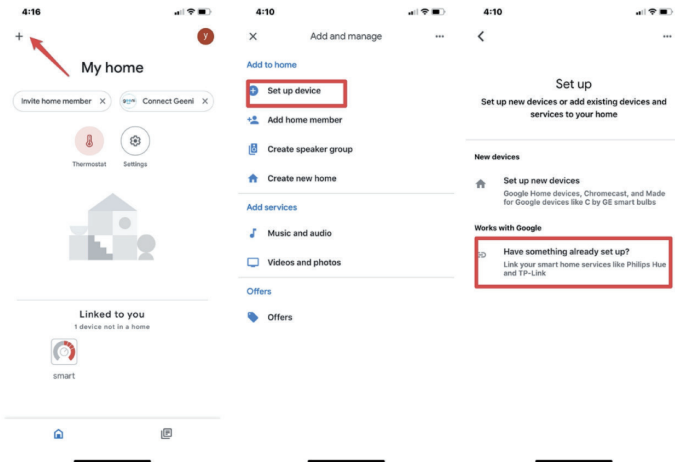

Step 4

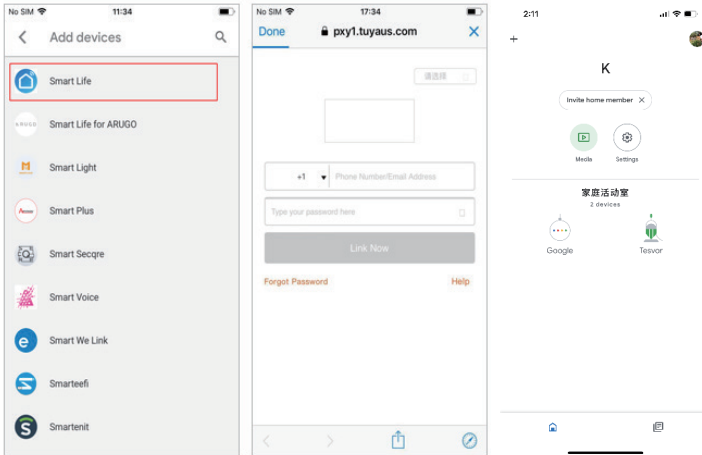

Link Tesvor Account account in Home Control

Attention: Due to the Google Home App’s known bug, you could only use one Google account to control “Home Control Action”. If you sign in Google Home App with several Google accounts, only the first Google account you signed in can be used for “Home Control”.

1. On the homepage of Google Home App, click the button in the higher left corner, select “+”, select “Set up device” under the list of “Add and manage”, and then click “Have something already set up”.

2. Find “Smart Life” in the list. In the new window, select your region, type your Tesvor account and password, then tap “Link Now”. After you assign rooms for devices, your devices will be listed in the Home Control page.

Step 5

Now you can control your robot vacuum through Google Home. Take bedroom light as the example, the supported voice commands are as below:

- OK Google, set Vacuum (or the name you set) to clean mode
- OK Google, set fanspeed to 3 on Vacuum
- OK Google, start/stop Vacuum
